Executive Summary

This location is currently categorized as Well-Served. The observed incident volume of 2 over the last 30 days is adequately covered by existing emergency response infrastructure. No immediate capital investment is required, and current service levels are sufficient.

Analysis Metrics

Metric	Value
Analysis Type	FIRE
Time Range Analyzed	30 Days
Grid Coordinates (Row, Col)	13, 9
Geographic Center (Lat, Lng)	53.5959, -113.5759
Incidents in Grid Cell	2
Distance to Nearest Station	5.0 grid units
Final Suitability Score	23 / 100

Recommendation

LOW PRIORITY
